### **Fall Classes Starting 2010**

September 8th, 15th, 21st and 28th

**Vermilion Catholic Campus  
Room 104**

## ACT Test Prep Course

In today's competitive world it is so important to perform well on standardized tests like the ACT. Higher scores could allow you to receive financial aid, possible academic scholarships and, gain entrance into top colleges and universities in the United States. Therefore you should give yourself the edge and direct your own future by taking an ACT prep course.

The test is divided into four disciplines including English, Reading, Math, and Science. By enrolling in the Vermilion Catholic Prep Course, you can strengthen your test taking skills and learn strategies that will better prepare you for the test than by just studying from a book.

This program provides 8 hours of instruction in the four content areas of English, Reading, Math, and Science. The course is taught by educators and administrators that have experience in ACT prep and in contributing test questions to previous ACT tests. Students who sign up for the course will receive a detailed workbook from *Kaplan ACT Comprehensive Program* that offers several practice tests and an online diagnostic quiz that will be analyzed by our instructors during the course. Our instructors offer a thorough review for all content on the ACT, reinforced with score-raising strategies, stress management skills, and a study timeline. Three full-length practice tests help students practice their new skills in a test-like format.

Class size is limited and offered only to Vermilion Catholic students. VC seniors will have priority for enrollment. You will only be guaranteed a seat when the attached registration form and a nonrefundable check for \$150 made out to Vermilion Catholic is received by the school. We urge you to register early.

Please refer to our website at [www.vermilioncatholic.com](http://www.vermilioncatholic.com) for more information on the ACT prep course.

## Students will:

- Be provided with a test review workbook by Kaplan that they will be able to keep and study before the test.
- Take an online diagnostic quiz provided by Kaplan that will help determine deficiencies before attending the class.
- Receive a detailed analysis of the practice test through face to face instruction.
- Learn powerful test taking strategies for each test section and question type, frequently tested concepts, and question patterns. The student will learn the structure of the test and how to score each of the academic areas: English, Reading and reasoning, Math, and Science.
- Be able to use the data from the practice test to apply to their ACT exam.

## Upcoming Test

Spring 2010  
Classes beginning in March

Fall 2010  
Classes beginning in September
